

WENDY MILLER, R.N., MSN

Wendy Miller is a strong addition to the HeartVentures professional staff. As a cardiovascular nurse specialist, she has over eleven years of experience directly related to cardiac care, recovery and health promotion. Her background includes work in coronary care unit, intensive care unit and emergency settings. She has managed outpatient cardiac rehabilitation programs as well developed and implemented disease management programs for patients with coronary artery disease, congestive heart failure and diabetes. She has extensive consulting, teaching and public speaking experience with health care providers, community groups and cardiovascular patients and their families.

Her credentials include:

- Master's Degree in Nursing, Seattle Pacific University
- Bachelor of Science Degree, Seattle Pacific University
- Licensed Registered Nurse
- Critical Care Certified, American Academy of Nursing
- Member, American Association of Cardiovascular and Pulmonary Rehabilitation
- Member, American Academy of Ambulatory Care Nursing

Mrs. Miller brings to HeartVentures a solid foundation and strong commitment to health promotion, cardiovascular risk reduction, fitness and nutrition.
